Subject: RE: Model MS4 permitting documents?
Attachments: Executive Summary v4.docx; Executive Summary v4 with Whitney and Mumley Comments.docx; TMDLs in SW Permit Template.docx

The first document, titled Executive Summary v4, was produced by CASQA. The second includes comments on it by Vicky Whitney (then head of the State Water Board, Division of Water Quality) and me. I've also attached a draft template for MS4 permit TMDL requirements and an associated Fact Sheet, which that I had produced during the dialogue.

Subject: Model MS4 permitting documents?

Gents- I must be having a senior moment, but I am trying to locate the model MS4 permit documents that were under development several years ago in a joint process between CASQA and Water Board leaders. But I cannot seem to find them. I am interested in all, but at the moment particularly interested in monitoring/reporting-related provisions. Any chance you can help me put my hands on these? Why reinvent the wheel if we got close back then? Thanks
